DESERT GOLD VENTURES INC.
NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
THREE MONTHS ENDED MARCH 31, 2017
(Unaudited - Expressed in US dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Desert Gold Ventures Inc. (the "Company" or "Desert Gold") is an exploration stage Company with a corporate office at 700 - 595 Burrard Street, Vancouver, British Columbia V7X 1S8. The principal business of the Company is conducting mineral property exploration in Mali and Rwanda.

The Company is an exploration stage Company primarily involved in mining and exploration activities which has incurred recurring losses from inception. These consolidated financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. As at March 31, 2017 the Company had not advanced its properties to commercial production and is not able to finance day to day activities through operations. The Company's continuation as a going concern is dependent upon the successful results from its mineral property exploration activities and its ability to attain profitable operations and generate funds from equity and/or debt financing that is sufficient to meet current and future obligations. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Management intends to finance the Company's operations over the next twelve months through private placement of common shares (Notes 4).

These consolidated financial statements do not include adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue operations.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Basis of consolidation and presentation

These consolidated financial statements have been prepared on an historical cost basis, modified where applicable. These consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information. All dollar amounts presented are in US dollars, unless otherwise specified.

These consolidated financial statements include the accounts of Desert Gold Ventures Inc. and its subsidiaries. All intercompany transactions and balances have been eliminated. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Subsidiaries of the Company are as follows:

Name	Country of incorporation	Ownership percentage	
		March 31, 2017	December 31, 2016
TransAfrika Belgique S.A.	Belgium	100%	100%
TransAfrika Rwanda Gold S.A.R.L.	Rwanda	100%	100%
TransAfrika Mali S.A.	Mali	74%	74%
TransAfrika Senegal S.A.	Senegal	100%	100%
GoldBanks Nevada Ventures Inc.	USA	100%	100%

b) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standards ("IAS") 34 "Interim Financial Reporting" ("IAS 34") using accounting policies consistent with the IFRS issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). Accordingly, certain disclosures required in annual financial statements have been condensed or omitted. These condensed interim financial statements are intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and

performance of the Company since the end of the last annual reporting period. It is therefore recommended that these condensed consolidated interim financial statements be read in conjunction with the most recent audited consolidated financial statements for the recent year ended December 31, 2016.

c) Change in accounting policies

The Company has not adopted new accounting policies since its last year ended December 31, 2016.

New accounting standard not yet effective is as follows:

IFRS 9 "Financial Instruments"

This new standard is a partial replacement of IAS 39 "Financial Instruments: Recognition and Measurement". IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2018.

The Company does not expect the adoption of this new accounting standard has material effects to the Company's consolidated financial statements.

3. EXPLORATION AND EVALUATION ASSETS

Desert Gold Ventures Inc. is an exploration stage Company which holds mining assets in Mali and Rwanda.

Title to resource properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many resource properties.

The Company has investigated the titles to all of its resource properties and, to the best of its knowledge, title to all of its properties is in good standing.

Rwanda Project

The Company, through its wholly owned subsidiary TransAfrika Rwanda Gold SARL, has 100% ownership of the Byumba exploration permit in Rwanda.

Mali Projects

The Company has the Farabantourou exploration permit, Djimbala permits, and Segala Quest Project through its subsidiary TransAfrika Mali S.A., located in Mali.

During the three months ended March 31, 2017, the Company incurred exploration cost, including planning and administration cost totaling \$28,419 in connection with the Rwanda and Mali Projects.
