DESERT GOLD VENTURES INC.
NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2025 AND 2024
(Unaudited - Expressed in US dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Desert Gold Ventures Inc. (the "Company") is an exploration stage company and is engaged in the acquisition, exploration and development of mineral resource properties. The principal business of the Company is conducting mineral property exploration in Mali. The Company's shares are traded on the TSX Venture Exchange (the "TSX-V") under the symbol DAU.

The head office and principal address is located at 9648 128 Street, Suite 210, Surrey, British Columbia, Canada, V3T 2X9.

Change of Mali government

In August 2020 and May 2021, a coup was staged by Mali's military resulting in the dissolution of the Malian government. Mali is currently governed by a transitional government. The Company's exploration activities have not been disrupted.

The Company's exploration and evaluation properties located in Mali (Note 5) may potentially expose the Company to risks and different considerations than in North America. The Company's ability to retain its exploration and evaluation properties, raise and deploy capital may be adversely affected by changes in governing regimes, policies, laws and regulations, all of which are beyond the Company's control.

New mining code of Mali

In August 2023, the Mali interim government adopted a new mining code and as part of their review of the mining sector, suspended the issuance and renewal of permits and exploration licenses.

Following the approval of the implementation decree by the Council of Ministers and the President of Mali, the new mining code is now functioning. Subsequently a number of agreements have been publicly announced by the Mali government and operating mining companies. In addition, in March 2025, the suspension of permit renewal has been partially lifted.

The Company has resumed discussion aimed at reaching agreements with the authorities and the renewal of the Company's exploration and evaluation permits that expired during the suspension period.

Going concern

The business of exploration, development and mining of minerals involves a high degree of risk and there can be no assurance that future exploration activities will result in the discovery of economically recoverable mineral deposits. The success and continuation of the Company as a going concern is dependent upon the Company's ability to arrange financing, which, in part, depends on prevailing market conditions, acquiring or discovering economically viable mineral properties, exploration success, and securing title and beneficial interests in its properties.

The Company had recurring losses and has not had revenue since inception. As at September 30, 2025 and for the nine months then ended, the Company had a comprehensive loss of \$1,265,282 and an accumulated deficit of \$59,368,832. Further funds will be required for the Company to continue as a going concern, fulfil its obligations and fund its activities. The Company does not produce revenues from its exploration activities or have a regular source of cash flow. There can be no assurance that the Company will be able to obtain sufficient financing in the future at favorable terms, if at all.

These factors indicate the existence of material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

1. NATURE OF OPERATIONS AND GOING CONCERN (Continued)

These consolidated financial statements are prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from the carrying values shown and these consolidated financial statements do not include adjustments that would be necessary if the going concern assumption is not appropriate.

2. MATERIAL ACCOUNTING POLICIES

Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standards - 34 Interim Financial Reporting and should be read in conjunction with the annual financial statements for the most recent year ended December 31, 2024, which have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board and Interpretations of the International Financial Reporting Interpretations Committee.

The accompanying condensed consolidated interim financial statements for the three and nine months ended September 30, 2025 were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on December 1, 2025.

These consolidated financial statements include the accounts of the Company and its subsidiaries. All intercompany transactions and balances have been eliminated. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Subsidiaries of the Company are as follows:

Significant judgments and estimates

Significant judgments

The most significant judgments in applying the Company's accounting policies in these consolidated financial statements are:

Title to mineral property interests

Although the Company has taken steps to verify title to exploration and evaluation properties in which it has an interest, these procedures do not guarantee the Company's title. Such exploration and evaluation properties may be affected by the Company's ability to retain their titles, subject to prior agreements or transfer and title may be affected by undetected defects.

Other significant judgments in applying the Company's accounting policies relate to the assessment of the Company's ability to continue as a going concern (Note 1) and the classification of its financial instruments.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2025 AND 2024
(Unaudited - Expressed in US dollars)

2. MATERIAL ACCOUNTING POLICIES (Continued)

Significant judgments and estimates (continued)

Significant estimates

Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include:

Recoverability and measurement of deferred tax assets

In assessing the probability of realizing deferred tax assets, management makes estimates related to the expectation of future taxable income, applicable tax opportunities, expected timing of reversals of existing temporary differences and the likelihood that the tax position taken will be sustained upon examination by applicable tax authorities. In making its assessments, management gives additional weight to positive and negative evidence that can be objectively verified.

Assumptions used to assess share-based compensation

In assessing the fair value of stock options granted and vested, the Company applies the Black-Scholes option pricing model. Option pricing models require the input of subjective assumptions, including expected price volatility, interest rate and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company's earnings and equity reserves.

New standards and interpretations issued

The Company has not adopted new accounting standards since its recent year ended December 31, 2024.

3. OTHER RECEIVABLE

The Company's other receivable consisted of the following:

	September 30, 2025	December 31, 2024
Goods and Services Tax recoverable	\$ 7,301	\$ 6,533

4. ACCOUNT PAYABLES AND ACCRUED LIABILITIES

The Company's accounts payable and accrued liabilities consisted of the following:

	September 30, 2025	December 31, 2024
Trade payable	\$ 31,160	\$ 74,439
Accrued liabilities	54,048	100,951
	\$ 105,170	\$ 175,390

5. EXPLORATION AND EVALUATION PROPERTIES

The Company is an exploration stage Company that holds various mineral property interests.

Title to resource properties involves certain inherent risks due to the difficulties of determining the validity of certain claims, as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of resource properties.

During the nine months ended September 30, 2025, the Company entered into an option agreement (the "Flower Agreement") with Flower Holdings SARLU ("Flower") to acquire a 90% interest in the Tiegba Gold Project ("TGP") which covers an area of 297km² located in Tier-1 Birimian orogenic gold belt of Ivory Coast, West Africa.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2025 AND 2024
(Unaudited - Expressed in US dollars)

5. EXPLORATION AND EVALUATION PROPERTIES (Continued)

Following are key terms of the Flower Option Agreement:

- Desert Gold will pay Flower of total of \$450,000 over the term of the Agreement, of which \$150,000 was paid upon signing of the Flower Agreement with the remaining balance to be paid in two equal instalments on the first anniversary of the agreement and the final payment being made of the first permit renewal;
- Desert Gold will issue a total of 1,500,000 common shares to Flower in three equal instalments. The Company issued the first instalments of 500,000 common shares on July 7, 2025 (with the fair value of \$32,166) and the two remaining installments of 500,000 common shares will be issued along with the cash payments;
- Upon completion of the cash and share payments to Flower, Desert Gold will have satisfied the terms of the Agreement earning a 90% interest in the TGP. Flower's 10% interest will be free carried through mine feasibility. Thereafter Flower will be subject to standard form pro-rata dilution clauses.
- Flower shall retain a one percent (1%) net smelter royalty on all ore mined from the TGP;
- Desert Gold will retain a right of first refusal of any sale of Flower's NSR and or 10% minority interest.
- During the option period, Desert Gold will be responsible for maintaining the Tiegba permit in good standing and satisfy any and all obligations required by Ivorian law and will take over operational control of the TGP on closing of the transaction with Flower.

Mali – SMSZ Projects

In Mali, the Company is operating the Senegal Mali Shear Zone Project ("SMSZ").

SMSZ: This project consists of i) Farabantourou Project; ii) 100% interest of the Farrimond Project (acquired in 2019 through the acquisition of Ashanti Gold Corp.); iii) an option agreement with Mineral Management Consulting ("MMC") ("MMC Option") to acquire certain concessions; iv) two-concession blocks (the "Sebessoukoto Sud" Project and "Djelimangara" Project, collectively, the "Altus Permits"); v) an option agreement ("SUD Option") for the acquisition of a 95% interest in Linguekoto Property; vi) an option agreement (the "Harmattan Option") for the acquisition of all rights of a research permit in the Sola West area; and vii) the Kolomba Exploration Permit that is contiguous to other permits of the SMSZ projects.

i) **Farabantourou Project** – The Company's Farabantourou project consists of a small-scale mining license ("Petite License") issued in October 2018 for four years and a Farabantourou exploration permit (the "Farabantourou Quest Permit") issued in November 2018 for an initial three-year term renewal for two additional two-year terms. The Company is required to incur minimum exploration expenditures of \$138,000, \$333,000 and \$371,000 during the first, second and third years, respectively, for the maintenance of the Farabantourou Quest Permit. On December 15, 2022, the Company received the renewed Petite License for another four years.

On September 30, 2025 and the date of this report, the renewal of the Farabantourou Quest Permit is in progress.

ii) **Farikounda Permit** – The Company acquired this property in 2019 through the acquisition of Ashanti Gold Corp. ("Ashanti"). The Farikounda Permit in Mali was renewed in November 2019 for three years with the option to renew for two additional two-year terms. The Company is required to incur minimum exploration expenditures of \$158,000, \$419,000 and \$347,000 during the first, second and third years, respectively.

On September 30, 2025 and the date of this report, the renewal of the Farikounda Permit is in progress.

Mali – SMSZ Projects (continued)

iii) **MMC Option** – During the year ended December 31, 2019, the Company entered into an option agreement with MMC to acquire a 100% interest in certain properties (the “Keniebandi-Est Permit” and “Kousilli West Permit”). The Company has already fulfilled all the requirements and earned a 100% interest in these two permits.

The underlying exploration permit of this property was renewed in 2019 for three years with the option to renew for two additional two-year terms. The permit holder is required to incur minimum exploration expenditures of \$125,000, \$416,000 and \$423,000 during the first, second and third years, respectively.

MMC shall retain a 2% net smelter return royalty (“NSR”) on all ore mined from the properties.

On September 30, 2025 and the date of this report, the Company is awaiting approval for renewal of the Keniebandi-Est Permit and Kousilli West Permit.

iv) **Altus Permits** – In August 2019, the Company entered into an agreement with Altus Strategies PLC (“Altus”) to acquire a 100% interest in Altus’ Sebessoukoto Sud and Djelimangara projects (collectively, the Altus Permits”). Terms of the agreement are as follows:

Part 1: Consideration

Upon signing of the agreement, the Company will:

- Within 5 business days make a cash payment of \$50,000 to Altus (paid in October 2019); and
- Within 14 business days and subject to any regulatory approval as may be required, issue 3,000,000 common shares to Altus (issued in October 2019).

Part 2: Milestone payments

Upon the reception of a National Instrument (“NI”) 43-101 *Standards of Disclosure for Mineral Projects* compliant independent resource over the project, which exceeds 500,000 ounces of gold, the Company will (in respect of the first 500,000 ounces only):

- Within 5 business days make a cash payment of \$100,000 to Altus; and
- Within 14 business days and subject to any regulatory or shareholder approvals as may be required, issue 2,000,000 common shares to Altus.

Upon the reception of a NI 43-101 compliant independent resource over the project, which exceeds 1,000,000 ounces of gold, then the Company will (in respect of the second 500,000 ounces only):

- Within 5 business days make a cash payment of \$100,000 to Altus; and
- Within 14 business days and subject to any regulatory or shareholder approvals as may be required, issue 3,000,000 shares to Altus.

Part 3: Project Royalties

Altus will retain a 2.5% NSR (“Altus NSR”) royalty on the project.

The Company will have the right to purchase up to 1.5% of the Altus NSR. The amount payable by the Company to Altus will be calculated by reference to the NI 43-101 gold reserve figure reported in an independent definitive feasibility study on the project as follows:

Mali – SMSZ Projects (continued)

iv) **Altus Permits** (continued)

Part 3: Project Royalties (continued)

- \$6,000,000 if the reserve is greater than 1,000,000 ounces;
- \$3,000,000 if the reserve is less than 1,000,000 ounces, but greater than 500,000 ounces;
- \$1,000,000 if the reserve is less than 500,000 ounces, but greater than 250,000 ounces; and
- Furthermore, the Company will have a 60-day right of first refusal to acquire such portion of the balance of the Altus NSR that Altus may, from time to time, wish to sell.

Altus will provide the Company a 10-day written notice of any intention to sell any of its shares of the Company. During that 10-day period, the Company will have the right to find a third-party to acquire such shares of the Company directly from Altus.

The Sebessoukoto Sud project is comprised of an exploration permit renewed in July 2018 for three years with the option to renew for two additional two-year terms. The Company is required to incur minimum exploration expenditures of \$108,000, \$383,000 and \$607,000 during the first, second and third years, respectively. On October 11, 2022, the Company received a renewed Sebessoukoto Sud Permit, which has a term of three years with the option to renew for one additional three-year term. The Company is required to incur minimum exploration expenditures of \$220,000, \$220,000 and \$307,100 during the first, second and third years, respectively.

The Djelimangara project is comprised of an exploration permit renewed in October 2019 for two years without a renewable option, which expired in 2021. A new permit (the “Kamana Permit”) was granted on October 21, 2022 in approximately the same area. The Kamana Permit has a term of three years with the option to renew for two additional three-year terms. The Company is required to incur minimum exploration expenditures of \$166,500, \$370,600 and \$531,800 during the first, second and third years, respectively.

v) **SUD Option** – In September 2019, the Company entered into an option agreement with SUD Mining SARL (“SUD”) to secure the right to acquire a 95% interest in the Linguekoto property (the “Linguekoto Project”). The Company has already fulfilled all the requirements of this option agreement.

The underlying exploration permit of the SUD option was renewed in September 2019 for three years with the option to renew for two additional 2-year terms. The permit holder is required to incur minimum exploration expenditures of \$112,000, \$229,000 and \$241,000 during the first, second and third years, respectively. SUD will retain a 5% carried interest, in the concession, before any interest retained by the government of Mali.

On September 30, 2025 and the date of this report, the Company is awaiting final approval for renewal of the permit for the Linguekoto Project.

vi) **Harmattan Option** – During the year ended December 31, 2020, the Company entered into an option agreement with Harmattan Consulting SARL (the “Optionor”) to acquire a 95% interest in the rights of a research permit (the “Sola West Permit”) of the Sola West Concession.

Terms of the option agreement are as follows:

- Cash payment of \$20,548 (12 million Mali CFA) to the Optionor for the option fees and taxes in connection with the mineral interests (paid); and
- Issuance of 100,000 common shares of the Company to the Optionor (issued in March 2021 with a market value of \$11,169).

vi) Harmattan Option (continued)

At the completion of the above payments, the Company would have acquired:

- the rights to carry out operations on the Sola West Permit;
- the exclusive option to acquire a 95% interest in the Permit after payments of the following:
 - \$33,183 (18 million Mali CFA) within 5 days at the publication of the Sola West Licensing Order (paid in February 2021);
 - \$82,957 (45 million Mali CFA) that was paid in June 2021, and 100,000 common shares of the Company issued in March 2021 with a market value of \$11,169; and
 - \$54,846 (33 million Mali CFA) that was paid on June 7, 2022, and 50,000 common shares were issued on June 1, 2022 with a market value of \$4,326.

The underlying exploration permit of the Harmattan Option was renewed in December 2020 for three years with the option to renew for two additional two-year terms. The permit holder is required to incur minimum exploration expenditures of \$126,000, \$287,000 and \$160,000 during the first, second and third years, respectively.

After the Sola West Permit is transferred to the Company, the Company will pay \$56,507 (33 million Mali CFA) within ten days after the transfer and issue 50,000 common shares of the Company to the Optionor.

Within 10 days after the Company informs the Optionor of the production decision of the Sola West Permit, the Company will pay:

- \$250,000 in the event of mining operation based on a feasibility study that indicates proven and probable reserves of a maximum 500,000 ounces of gold; and
- \$1 per ounce for the exploitation of a deposit based on a feasibility study that indicates proven and probable reserves between 500,000 to 1,000,000 ounces of gold.

In addition of the above, the Company will grant a 2% NSR in connection with the Sola West Permit. The Company has the right at any time to purchase 1% of the NSR for \$1,000,000.

On September 30, 2025 and the date of this report, the Company is awaiting approval for renewal of the Sola West Permit.

vii) **Kolomba Permit** – In 2021, the Company was granted the Kolomba Exploration Permit with an initial three-year term from the date of issuance (November 1, 2021). The Company has the right to renew this permit for two additional two-year terms. The permit holder is required to incur minimum exploration expenditures of \$158,000, \$395,000 and \$485,000 during the first, second and third years, respectively.

On September 30, 2025 and the date of this report, the Company is renewing the Kolomba Permit.

viii) **Disposition of Djimbala Permit**-During the nine months ended September 30, 2025, the Company disposed the Djimbala Permit, a permit the Company ceased to work on in prior years, to an arm's length entity for \$125,000. The Company paid a commission of \$9,500 and recorded a gain of disposition of \$115,500 accordingly.

7. RELATED PARTY TRANSACTIONS

(a) Transactions with key management personnel

Key management personnel include those persons having authority and responsibility for planning, directing and controlling the activities of the Company as a whole. The Company has determined that key management personnel consist of executive and non-executive members of the Board of Directors and corporate officers. The aggregate values of transactions relating to key management and companies related to key management are as follows:

Nine months ended September 30,	2025	2024
	\$	\$
Consulting fees	175,015	186,329
Rent	12,950	13,235
Geo-analysis (i)	1,108	-
Share-based compensation	71,164	135,250

(i) A company related to a director provided geo-analysis to the Company during the nine months ended September 30, 2025.

The Company issued 1,250,000 common shares on warrant exercise to an entity related to a Company's director at CAD\$0.08/share (Note 6(a)).

2024

Following are the other transactions between the Company and its related parties during the year ended December 31, 2024:

Through the private placements (Note 6(a)), two entities that are related to a director of the Company, subscribed totaling 2,857,142 units for CAD\$200,000.

One shareholder with more than 10% holding of the Company (on a fully diluted basis) and one director exercised 14,300,000 and 1,428,571 warrants, respectively, associated with the Program (Note 6(c)).

b) Balances due to related parties

Amounts due to related parties are unsecured, non-interest bearing and have no fixed terms of repayment. The Company's accounts payable and accrued liabilities (Note 4) included the following balances owing to related parties:

Due to related parties	Nature	September 30, 2025	December 31, 2024

8. FINANCIAL INSTRUMENTS

Classification of financial instruments

Financial instruments included in the consolidated statements of financial position are as follows:

		September 30, 2025	December 31, 2024
		\$	\$
Cash	Amortized cost	791,288	348,601
Other receivable	Amortized cost	7,301	6,533
Accounts payable and accrued liabilities	Amortized cost	(105,170)	(175,390)

Fair value

The fair value hierarchy established by IFRS 13 *Fair Value Measurement* has three levels to classify the inputs to valuation techniques used to measure fair value described as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the assets or liabilities either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

At the respective reporting dates, all of the Company's financial instruments had maturities less than one year. As a result, the carrying amount of accounts payable and accrued liabilities approximated the fair values due to the short-term maturities.

Risk management

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyze the risks faced by the Company to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company has exposure to the following risks from its use of financial instruments:

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to ensure as far as possible that it will always have sufficient cash on demand to meet its liabilities when they fall due under both normal and stressed conditions without incurring unacceptable losses or risking damage to the Company's reputation.

Historically, the Company's primary source of funding has been the issuance of equity securities for cash, primarily through private placements and loans from related and other parties. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding. The Company is subject to liquidity risk.

Interest rate risk

As at September 30, 2025, the Company did not have any significant exposure to the risk of changes in market interest rates, as the Company did not have any financial instruments that are exposed to changes in interest rates.

8 FINANCIAL INSTRUMENTS (Continued)

Risk management (Continued)

Foreign currency risk

Foreign currency risk arises from holdings of financial assets and liabilities in currencies other than the functional currency to which they relate. The Company and its subsidiaries have minimal such holdings, consequently foreign currency risk is considered low.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from optionees and investment securities.

The potential concentration of credit risk consists mainly of cash. The Company limits its counterparty exposures from its cash by only dealing with well-established financial institutions of a high quality credit standing. The maximum exposure to credit risk is represented by the carrying amount of each financial asset on the consolidated statement of financial position.

At the reporting date the majority of the Company's cash resources were deposited with reputable established financial institutions. As a result, management believes the Company is not exposed to significant credit risk due to the credit worthiness of these counterparties.

9. SEGMENTS

The Company operates primarily in one reportable business segment, which is the exploration and development of resource properties located in Mali, West Africa. The Company also maintains a head office in Vancouver, British Columbia, Canada, to management the Company's administrative activities.

As of September 30, 2025 and December 31, 2024, the Company did not have non-current assets and liabilities.

10. SUBSEQUENT EVENTS

The Company issued 937,500 common shares on warrants exercised on CAD 0.08 per share in October 2025 for gross proceeds of CAD\$75,000.
